

Before Artisan, your choice for an outdoor kitchen came down to premium American-made brands at a high cost, or much less expensive (and much lower quality) imports. At Artisan, we strive to offer affordable luxury with all the quality and features you expect in premium American-made appliances and accessories, at prices normally only imports can offer. Our years of experience building equipment for some of the finest restaurants, and state-of-the-art manufacturing facility allow us to offer an unprecedented mix of quality and value.

Artisan

Specifications and Cutouts

All the details you need to complete your dream outdoor kitchen

Gas Requirements

Nat. - 1/2" NPT connection
5" W.C. pressure
L.P. - 3/8" ODF connection
10" W.C. pressure

NOTE: Standard configuration is for natural gas. For L.P. models, add "LP" to part # when ordering

Grill Model	Cutout Dimensions			Minimum Setback (S)
	W	D	H	
AAE-26	24-1/2"	19-3/4"	9-1/2"	5"

Proudly setting the new standard for affordable luxury *Artisan*

Unparalleled quality, value and performance, all made in America

Artisan grills offer an impressive array of features normally found only on much more expensive models

- Stainless steel tube U-burners for a long service life with 20,000 BTUs of powerful heat output
- Burner features unique double row, double lanced ports for superior combustion and even heat
- Powerful electronic ignition with special gas capture valves for easy, fast, and reliable start up
- Continuously variable solid brass control valves for precise heat control and a wide range of temps
- Swap any U-burner with the optional Artisan Infrared Searing Burner (see below) for rapid searing

- 1/2" thick ceramic briquettes for efficient, even heat distribution across the grilling surface
- Specially-designed heat stabilizing briquette trays ensure even heating and reduce flare-ups
- Heavy gauge stainless steel grates for easy maintenance and restaurant-quality grill marks

- Two-position warming rack stores conveniently up out of the way when not in use
- Warming rack and grill racks made from solid stainless steel rod for long life and easy cleaning
- Built-in halogen work light and rear infrared rotisserie burner standard on Classic models

- Recessed vertical control panel protects chrome knobs and switches from the elements
- Powerful, reliable electronic ignition with 600° heat-resistant encased wiring for easy startup
- Unique air curtain chimney design keeps controls cool to the touch even with lid closed

- Built from all 300 series stainless steel for long lasting beauty and resistance to the elements
- Seamless welded double skin hood with hand-polished accents and full width handle
- Attractive high-touch bullnose and nameplate complete an elegant yet functional design

Standard on every Artisan grill, this convenient thermometer is built into the hood for accurate oven roasting temperatures.

Optional on every Artisan grill, the Infrared Searing Burner reaches incredibly high temps to quickly caramelize food, locking in juices and flavor. Easily swaps with standard U-burner to add extra versatility to your grill. Model #ART-ISB
