THE ART OF DESIGN

MAKE YOUR STATEMENT WITH COLOR

While your hardscape choices form the foundation of your outdoor space, the colors you choose help define the mood and style of the space and reflect your personality. Soft, natural tones foster relaxation, while vibrant accents inject energy for lively entertaining areas. Use contrasting colors to add flair and showcase your confidence and creativity.

Solid Shades

Solid shades create a clean, cohesive look that enhances architectural lines and allows landscaping and décor to stand out.

Cool Blends

Grays with blue tones add a refreshing, modern touch to outdoor spaces, elevating style with subtle sophistication.

Warm Tones

Browns, tans, and other earthy tones create a cozy, inviting feel, echoing natural elements like sun-warmed stone and soil for a grounded, welcoming vibe.

Monochromatic

Monochromatic paver colors use different shades of the same hue to create a sleek, unified look that lets textures, patterns, and surrounding elements stand out without visual clutter.

Contrasts

Contrasting color tones enhance outdoor spaces by defining patterns, borders, and architectural features for a custom look.

Mix & Match

Mixing and matching paver colors adds depth and visual interest to outdoor spaces, creating a dynamic look that highlights patterns, textures, and architectural features.

FROM GRAND TO INTIMATE

HOW SCALE TRANSFORMS

The size of your patio sets the tone for how you'll use it, and the pavers you choose can make it feel cozy, expansive, modern, or traditional. Here's a guide on how to choose the right paver size for your space.

Modern and Spacious

DIMENSIONS™ 24 X 36

Larger slabs open up the design, creating a smooth, modern look that feels expansive and uncluttered. Ideal for bigger patios, they emphasize flow and a contemporary sense of space.

Perfectly Proportioned

DIMENSIONS™ 12 X 24

Mid-sized pavers strike the perfect balance between detail and simplicity. They complement most spaces and pair beautifully with surrounding materials for a clean, cohesive look.

Detailed and Dynamic

DIMENSIONS™ 3 X 12

Smaller pavers create a sense of texture and movement—perfect for cozy patios or compact spaces. Their tighter pattern adds visual interest and makes areas feel more intimate.

DESIGN YOU CAN FEEL

THE POWER OF TEXTURE

Texture is one of the most powerful tools in hardscape design, adding both personality and traction underfoot. Mix textures to balance interest, play with light and shadow, and create spaces that are both safe and inviting.

Charlestone™ in Fog, Brooklyn™ in Midnight & Papyrus™ in Scandina Gray

DEFINING PERSONALITY & FLOW

ENDLESS PATTERNS. INFINITE DESIGNS.

Pattern does more than decorate. It guides movement, defines zones, and sets the mood. Straight lines feel calm, while angles add energy. Borders and rug-like layouts frame patios, paths, and seating areas.

Small Detail. Big Design Impact.

BROOKLYN™

Joint sand color affects the overall mood of a design. Tone-on-tone color creates a soft seamless look. Contrasting color sharpens lines and spotlights the pattern.
