BELGARD® ELEMENTS COLLECTION™

DESIGNED FOR FAST & EASY INSTALL

INSTALLING BELGARD ELEMENTS TIPS:

- TIP 1.** Always place a piece of material, plywood or carpet work well-between your forks and the Elements to prevent chipping.
- TIP 2.** Always transport the Element on the pallet it comes with until you are ready to place on the permanent location.
- TIP 3.** Make sure to use a ratchet strap to secure the Element to the loader when transporting and placing.
- TIP 4.** Handle Elements with care - they are concrete, but not indestructible.

Make sure to size the machine to the Elements weight.
- TIP 6.** All Elements are designed to be buried 4" below finish grade.

Elements are delivered already assembled. All you need to do is create the proper base and place the units in the desired location. Follow the steps below and refer to our tips for a successful installation.

INSTALLATION INSTRUCTIONS

**STEP
1.**

Always place a piece of material (plywood or carpet) between your forks and the Elements to prevent chipping. Be sure to review installation instructions for each Element.

**STEP
2.**

Always transport the Element on the pallet it comes with until you are ready to place in the permanent location. Keep a ratchet strap around it until it's set completely.

**STEP
3.**

Pour a level concrete pad to set the Element on. Check local ordinances to see if frost footings are required. (See page 28 for concrete pad installation)

**STEP
4.**

Place Element on concrete pad. Use plastic shims to adjust for pad imperfections if necessary and exercise caution when setting. Never place hands or feet between the Elements and the pad.

**STEP
5.**

For two piece Elements such as fireplaces and brick ovens, make sure the top section is centered in both directions. It is not necessary to adhere pieces together unless there is a seismic requirement in your area.

**STEP
6.**

Once Elements are set on pad, install all additional items such as flue pipes, termination caps, and stainless (i.e. grill and accessories). At this time also place all "plugs" into fork slots.

For areas not affected by freeze-thaw conditions please contact your local Belgard sales representative for further installation information.
